

# White Sugar (25kg & 50kg)

See technical specifications below. For full Certificate of Analysis (COA) and lot-specific values, request per shipment.

Specification	Value
Moisture	≤ 0.04%
ICUMSA	≤ 45 (RBU)
Ash	≤ 0.04%
Polarization	≥ 99.8%
Packaging	25kg/50kg sacks
Origin	Varies by shipment
Certificates	COA per lot

25kg/50kg sacks  
White Sugar  
Request per shipment

# Brown Sugar

See technical specifications below. For full Certificate of Analysis (COA) and lot-specific values, request per shipment.

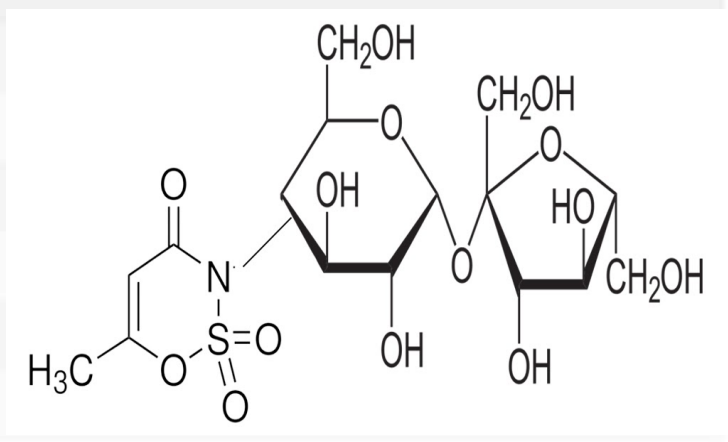

Specification	Value
Moisture	≈0.10%-0.50%
ICUMSA	Typically 600-1200
Ash	≈0.10%-0.20%
Packaging	Bulk sacks
Origin	Varies
Certificates	COA per lot

# ICUMSA 1919 (Industrial Sugar)

See technical specifications below. For full Certificate of Analysis (COA) and lot-specific values, request per shipment.

Specification	Value
Moisture	0.1%-0.25% (confirm COA)
ICUMSA	≈1919
Ash	Supplier dependent
Packaging	Bulk industrial sacks
Origin	Varies by shipment
Certificates	COA & lab reports per lot

100g x 100g x 100g

# Rice — 50kg Bag

See technical specifications below. For full Certificate of Analysis (COA) and lot-specific values, request per shipment.

Specification	Value
Moisture	≤15% m/m (Codex); storage 12-14%
Broken%	Varies by grade
Impurities	Per COA
Packaging	50kg pp sacks
Origin	Varies
Certificates	Phytosanitary & COA

# Rice — 25kg Bag

See technical specifications below. For full Certificate of Analysis (COA) and lot-specific values, request per shipment.

Specification	Value
Moisture	≤15% m/m (Codex); storage 12-14%
Broken%	Varies by grade
Packaging	25kg pp sacks
Origin	Varies
Certificates	Phytosanitary & COA

# Coffee — Sacks (Green / Roasted)

See technical specifications below. For full Certificate of Analysis (COA) and lot-specific values, request per shipment.

Specification	Value
Moisture	8%-12.5% (green)
Grading	Depends on lot
Packaging	60kg/69kg sacks
Origin	Specify per lot
Certificates	COA & export docs

# Cooking Oil (Refined)

See technical specifications below. For full Certificate of Analysis (COA) and lot-specific values, request per shipment.

Specification	Value
Free Fatty Acidity (FFA)	Typically $\leq 0.1\%$ - $0.5\%$ (refined)
Peroxide Value	Typically $\leq 10$ meq O <sub>2</sub> /kg
Polar Compounds	Within regulatory limits
Packaging	Drums/IBCs/bottles
Origin	Varies
Certificates	COA & spec sheet

100% Pure  
100% Natural  
100% Healthy
